PROJECTS

Online Job Portal — Php Codeigniter framework

I've developed this **job portal**, also known as a career **portal**, is a modern name for an **online job** board that helps applicants find **jobs** and aids employers in their quest to locate ideal candidates.

akshaygajjar.github.io — Portfolio Website

My portfolio website which I made from scratch using HTML, JavaScript, CSS and Bootstrap. I've also used few open source plugins developed by other developers.

OCR Telegram BOT

OCR Telegram Bot implementation Using Python-Tesseract and Cloudmersive API. That performs OCR on images you send to it.
